# Parking and Shut Down

1. Find a safe spot to park, and bring the FUV to a complete stop. **Leave the brake pedal depressed.**

2. Slide the Direction switch to **Neutral (•)**.

3. Press the Parking Brake button on the Control Panel to **engage the Parking Brake**. The Parking Brake is fully engaged when all three LEDs on the button are lit (approximately three seconds).

4. Turn the Key to **OFF** and remove the Key.

5. Release the brake pedal.

## Post-Drive

When you finish a drive, plug the FUV into a charging station to maintain charge.

### WARNING

Significant risk of injury or death. Follow all safety notes and warnings. Always wear seat belts, and obey all traffic laws.
